Cost of Gas: SDG&E's anticipated monthly cost of core gas, adjusted for any over or under collection from prior month. During the 2005/2006 winter period, the cost will also reflect the Gas Hedging Plan approved by the CPUC in Decision 05-10-043.

Capacity* : Interstate Pipeline Transportation demand charges paid to bring the gas to the California border, includes a core interstate transition surcharge (CITCS). Includes a rate to recover El Paso Turned-Back Capacity costs.

Storage :** Carrying Cost of Storage in Inventory Charge

F.F. & U: Franchise Fees are a tax paid to municipalities. "U" are uncollectables. Customers who purchase from a 3rd-party gas supplier, are billed by SDG&E for "Gas/Capacity" related Franchise Fees under Schedule GP-SUR.

Brokerage Fee: SDG&E's average cost per therm for providing gas procurement services.

SDG&E Gas Price: This gas price is embedded in SDG&E's core customer's bundled tariffs; GR, GR-LI, GM, GS, GT, GN-3. This is the price that is avoided when core customers purchase their gas from a third-party gas suppliers.

* A therm equals approximately 100,000 British Thermal Units (Btu) which is approx. 100 cubic feet.
